# Rider treks from Japan to Ireland all in thirst gear

By GARY O'SHEA

**A GUINNESS fan cycled 8,000 miles across the world from Japan — for a pint of the black stuff!**

And as Yasayuki Ozeki celebrated in the Dublin brewery last night, he said: "I'm in heaven — I've had four or five of the best pints in the world."

Yasayuki, 27, from Osaka, gave up his job in manufacturing to make the epic journey.

*But he said he much preferred Ireland to Japan.*

"I don't like Japan too much because of all the work pressure," he said. "It's just not my style."

His marathon ride, which started in April, was followed on Gerry Ryan's radio show.

And yesterday Yasayuki presented Gerry with a pair of Y-fronts he wore on the trip.

A show insider confided: "Yasayuki only brought three pairs of underwear and three pairs of socks with him so they were obviously very smelly."

Only here for the beer . . . Yasayuki yesterday

A man went to the doctor's and said he had a chicken bone in his throat.

"Are you choking?" asked the doctor.

"No, I'm being serious," said the man.
